Dedicated and innovative React JS Developer with a strong background in front-end development, seeking a position to leverage expertise in creating dynamic and visually appealing web applications. Committed to delivering high-quality code and collaborating with cross-functional teams to achieve exceptional user experiences.

Skills

- Front-end: HTML, CSS, JavaScript, React.js, Next.js, TypeScript, Redux
- Back-end: Node.js, Express.js, MongoDB, Nest.js
- REST APIs

Work Experiences

Software Engineer I | Schoollog | July 2022 – Present

- Collaborated in the development of [Schoollog, Hostellog, NewsFeed, Coachinglog, COCO, GCI]

Developer Trainee | Schoollog | Jan 2022 – June 2022

- Gained expertise in React.js through hands-on projects
- Contributed to live projects within the organization

MERN Full Stack Trainee (Online) | TechStack Education | May 2021-Sept 2021

- Developed websites using JavaScript, Node.js, Express.js, MongoDB, and React.js
- Acquired skills in full-stack development, front-end, and back-end fundamentals

Education

- B. Tech in Computer Science and Engineering (2018-2022)
Global Institute of Technology, Jaipur

Projects

1. NewsFeed Website

- Led the design and implementation of a dynamic NewsFeed platform, enabling institutes and coaching centers to seamlessly share photos, videos, polls, and events with staff and parents.
- Integrated interactive features that enhanced user engagement, such as real-time updates and notifications for new content.
- Leveraged technologies including JavaScript, React.js, Next.js, and SWR to ensure efficient data fetching and a smooth user experience.

2. CoachingLog

- Conceptualized and developed a comprehensive student enquiry management system, streamlining the entire process from initial inquiry to admission for educational institutes.
- Employed JavaScript, Next.js, Nest.js, and Redux to build a robust and responsive front-end, while ensuring seamless data flow between components.

3. HostelLog

- Spearheaded the creation of a feature-rich Hostel/PG management web application, simplifying the complex process of tenant check-in, check-out, payments, and room allocations.
- Implemented data validation and error handling mechanisms to ensure accurate and reliable data management
- Technologies: JavaScript, React.js, SWR

4. Responsive Personal Portfolio Website

- Developed a fully responsive personal portfolio website showcasing my skills, experience, projects, and achievements, enhancing my online presence and professional branding.
- Crafted an engaging and visually appealing design using HTML, CSS, JavaScript, Next.js & Chakra ui ensuring optimal display on various devices and screen sizes.
